GMAT Online Secure Browser*

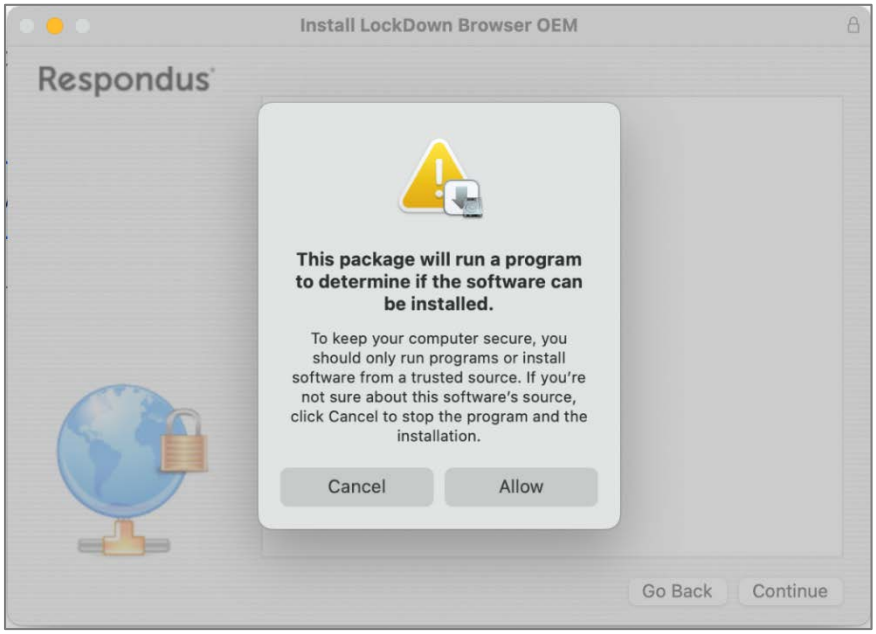

Mac Installation Guide

*provided by Respondus

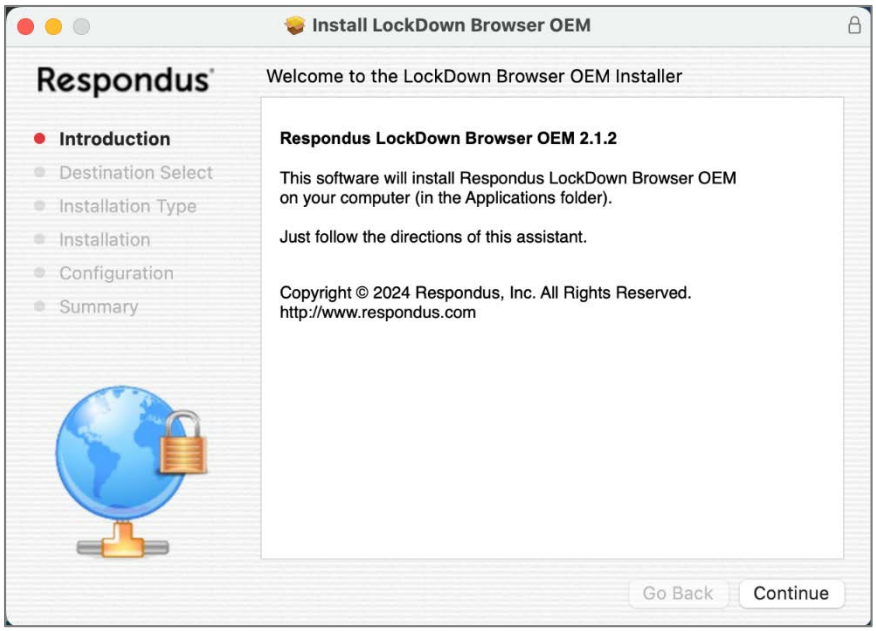

1. Open the MAC OS installation package "MAC_RSB_Download_File-v2.1.2.02.pkg" located in your Downloads folder.

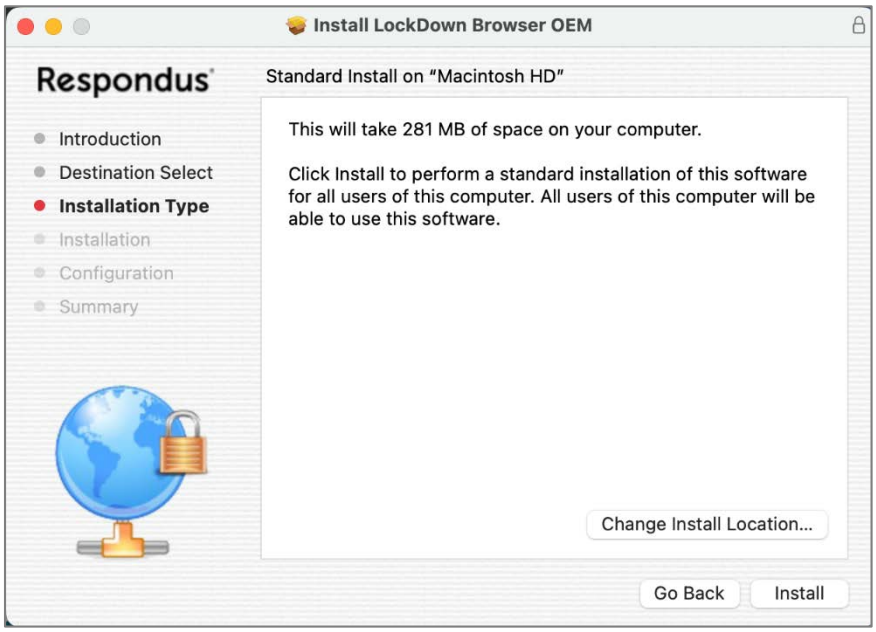

2. Allow the Program to Initialize. You will see the program referred to as "Respondus."

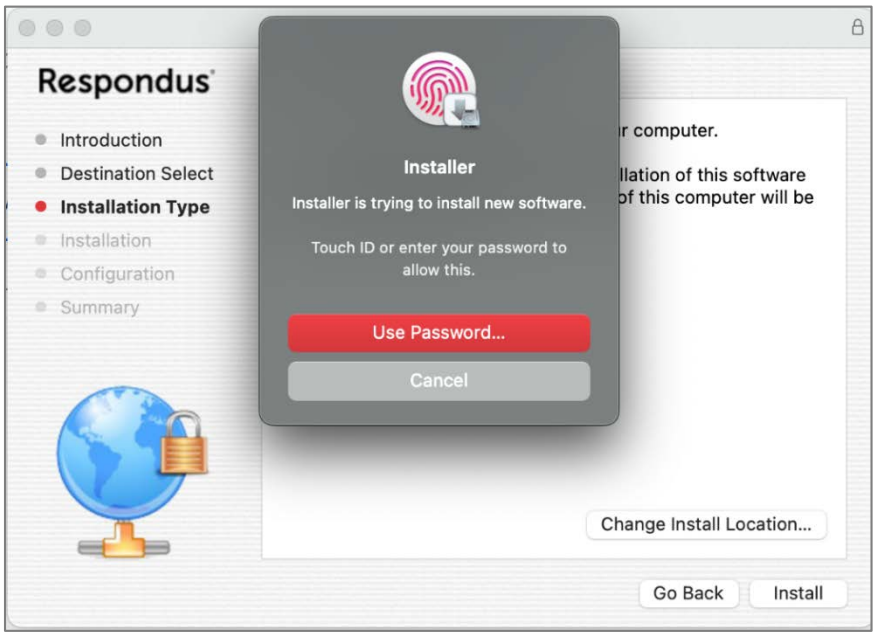

3. Start the Installation Process and click on “Continue.”

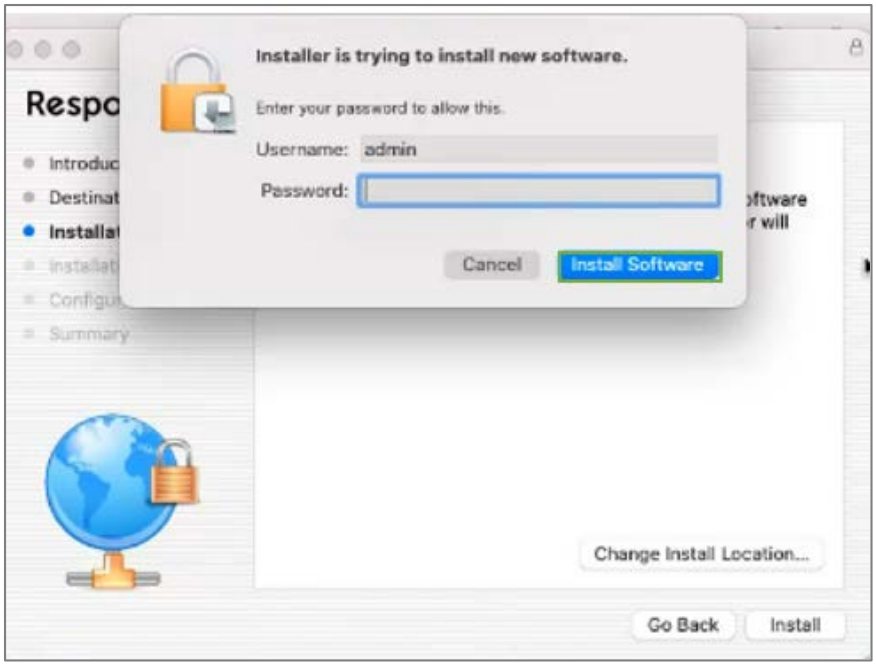

4. Allow the program to install by clicking the “Install” button.

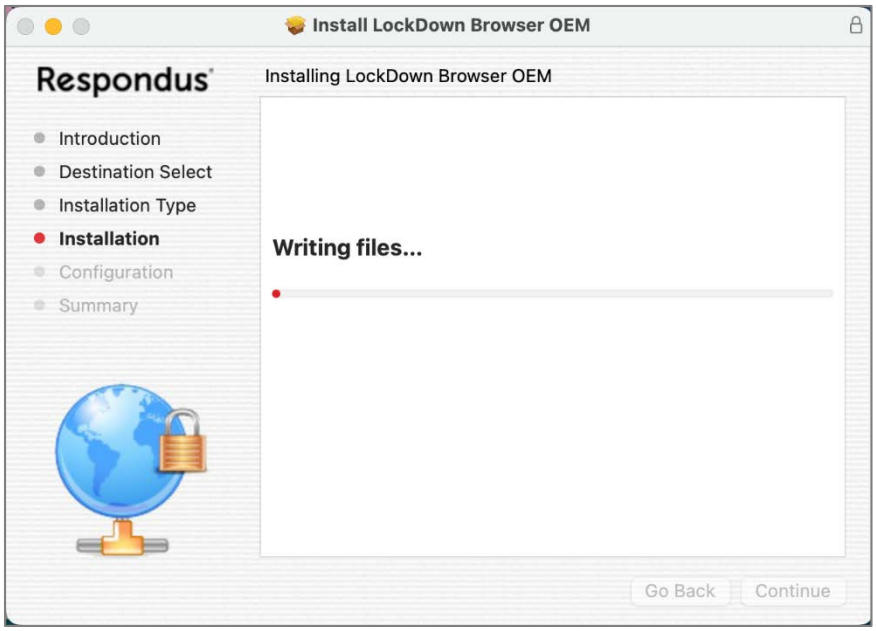

5. Enter your computer username and password and click "Install Software" to allow the installation to proceed.

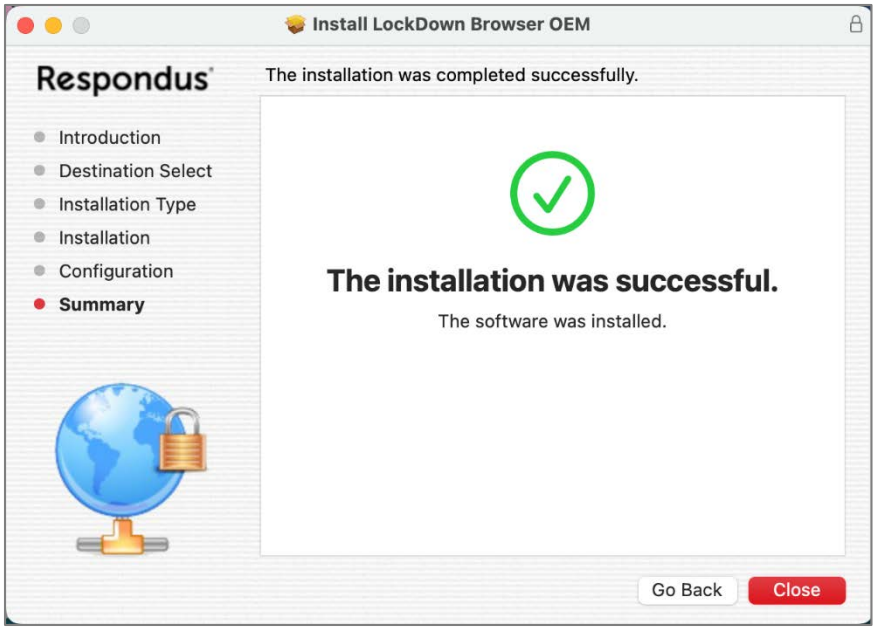

6. Let the Installer run to complete the installation.

7. After successful installation, a message will display saying "The installation was successful." Click "Close" to close the installer.

Please Note: *Launching your scheduled GMAT exam will open this Secure Browser which will lock your machine and update your preferences to adhere to the system requirements for the GMAT exam delivered online.*
