What is the GMAT

What is the GMAT?

5,400+ programs

2,000+ schools

90+ countries

What is the GMAT?

- Continuous, secure testing available in

550+ test centers

110+ countries

- Cost \$250 USD, includes sending results to five (5) programs
FREE
- Candidates can retest once/month, up to five times in 12 months
 - 20% take more than once
 - Average 30 point gain
 - Most schools accept the highest score

What is the GMAT?

Analytical Writing Assessment *(30 minutes)*

Analysis of an Argument

Integrated Reasoning *(12 questions, 30 minutes)*

Optional Break

Quantitative Reasoning *(37 questions, 75 minutes)*

Problem Solving

Data Sufficiency

Optional Break

Verbal Reasoning *(41 questions, 75 minutes)*

Reading Comprehension

Critical Reading

Sentence Correction

What is the GMAT?

Measures higher order thinking skills

– such as analysis, synthesis, and evaluation

Analytical Writing

- Analyze the reasoning behind a given argument
- Formulate an appropriate and constructive critique of a specific conclusion based on a specific line of thinking

Integrated Reasoning

- Synthesize information
- Evaluate relevant information from multiple sources
- Organize, combine and manipulate information

Quantitative Reasoning

- Reason quantitatively
- Solve quantitative problems
- Recognize which information is relevant and sufficient

Verbal Reasoning

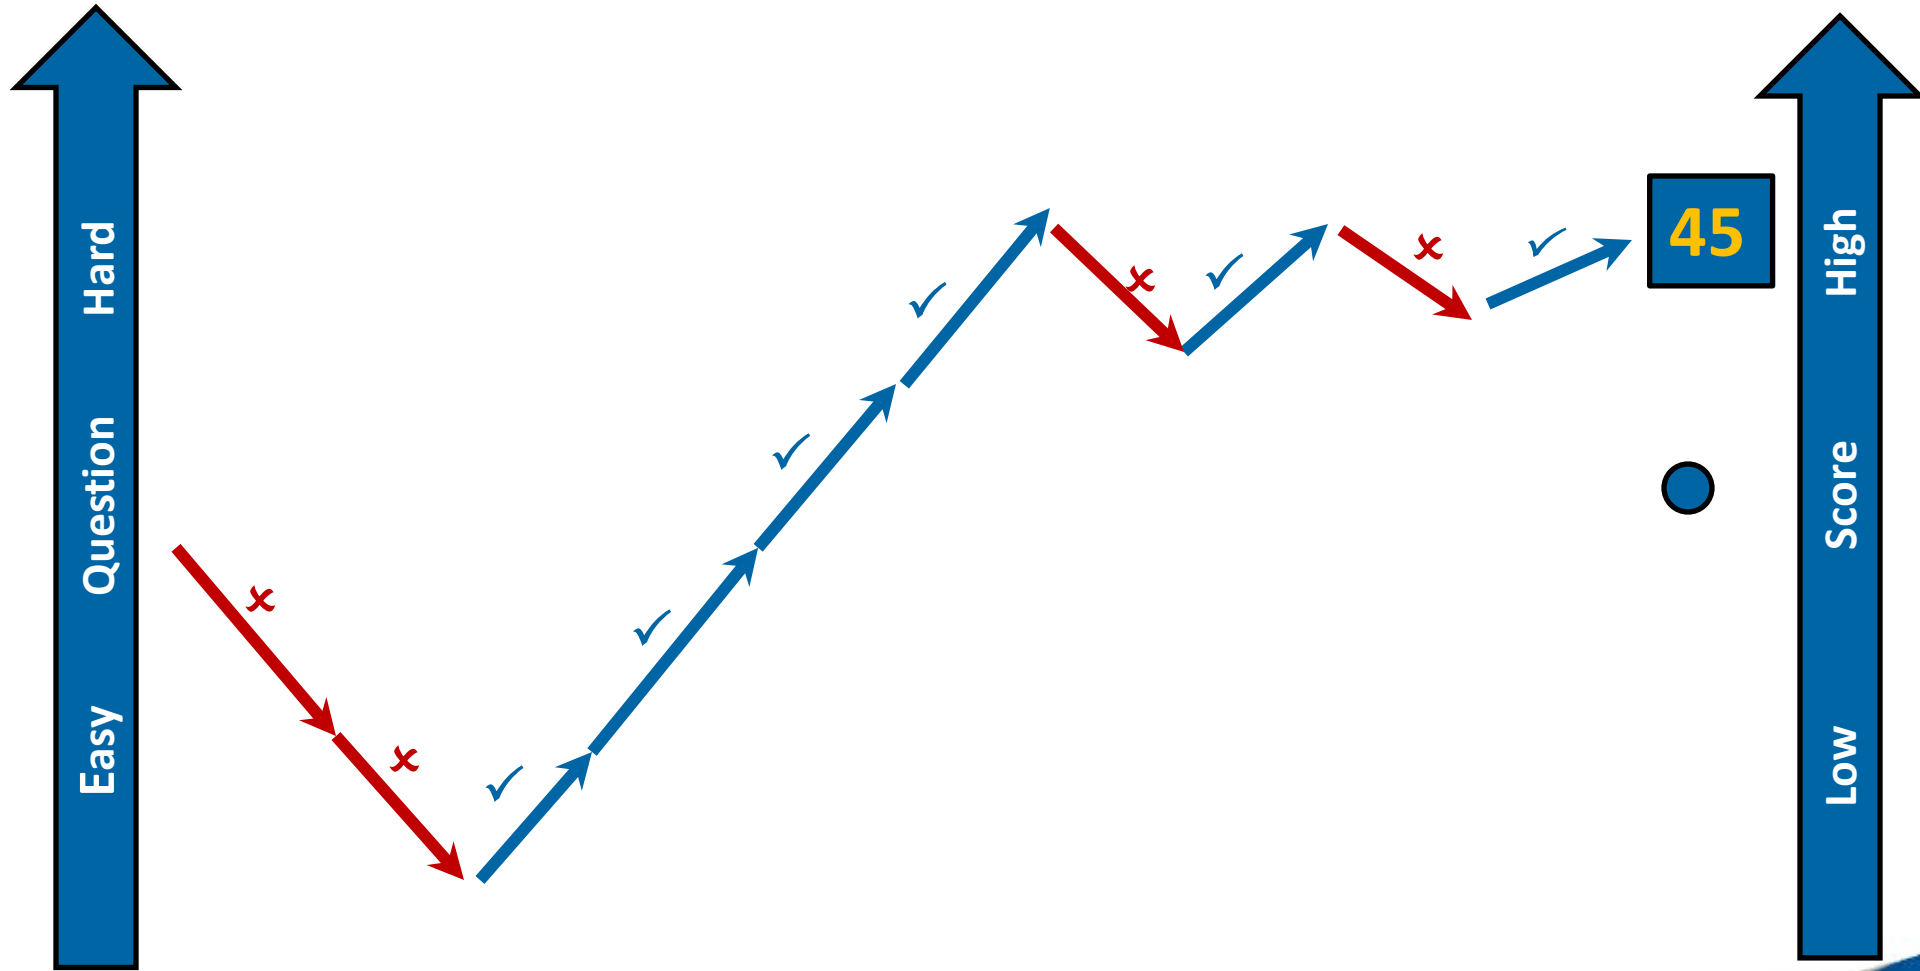

- Draw inferences from written materials
- Critically evaluate arguments
- Correct written material

What is the GMAT?

Computer Adaptive Test (CAT)

Calculator

Techniques

Artifacts

Budget

Island Museum analyzes historical artifacts using one or more techniques described below—all but one of which is performed by an outside laboratory—to obtain specific information about an object’s creation. For each type of material listed, the museum uses only the technique described:

Animal teeth or bones: The museum performs *isotope ratio mass spectrometry* (IRMS) in-house to determine the ratios of chemical elements present, yielding clues as to the animal’s diet and the minerals in its water supply.

Metallic ores or alloys: *Inductively coupled plasma mass spectrometry* (ICP-MS) is used to determine the ratios of traces of metallic isotopes present, which differ according to where the sample was obtained.

Plant matter: While they are living, plants absorb carbon-14, which decays at a predictable rate after death; thus *radiocarbon dating* is used to estimate a plant’s date of death.

Fired-clay objects: *Thermoluminescence* (TL) *dating* is used to provide an estimate of the time since clay was fired to create the object.

For each of the following artifacts in the museum’s Kaxna collection, select *Yes* if, based on the museum’s assumptions, a range of dates for the object’s creation can be obtained using one of the techniques in the manner described. Otherwise, select *No*.

- | Yes | No | |
|-----------------------|-----------------------|----------------------------|
| <input type="radio"/> | <input type="radio"/> | Bronze statue of a deer |
| <input type="radio"/> | <input type="radio"/> | Fired-clay pot |
| <input type="radio"/> | <input type="radio"/> | Wooden statue of a warrior |

多源推理

Multi-Source Reasoning

Test takers will be asked to use text, charts, and/or tables from two to three sources of information to answer questions

Calculator

The table displays data on *Brazilian agricultural* products in 2009.

Sort 
By:

Commodity	Production, world share (%)	Production, world rank	Exports, world share (%)	Exports, world rank
Beef	16	2	22	1
Chickens	15	3	38	1
Coffee	40	1	32	1
Corn	8	4	10	2
Cotton	5	5	10	4
Orange juice	56	1	82	1
Pork	4	4	12	4
Soybeans	27	2	40	2
Sugar	21	1	44	1

For each of the following statements, select *Yes* if the statement can be shown to be true based on the information in the table. Otherwise select *No*.

- | Yes | No | |
|-----------------------|-----------------------|--|
| <input type="radio"/> | <input type="radio"/> | No individual country produces more than one-fourth of the world's sugar. |
| <input type="radio"/> | <input type="radio"/> | If Brazil produces less than 20% of the world's supply of any commodity listed in the table, Brazil is not the world's top exporter of that commodity. |
| <input type="radio"/> | <input type="radio"/> | Of the commodities in the table for which Brazil ranks first in world exports, Brazil produces more than 20% of the world's supply. |

表格分析

Table Analysis

Test takers will be presented with a sortable table of information, which has to be analyzed to determine if answer statements are accurate

Refer to the pictograph of a survey of students at Central Community College. Each symbol represents 10 students in a sample of 300.

Use the drop-down menus to complete each statement according to the information presented in the diagram.

If one student is selected at random from the 300 surveyed, the chance that the student will be under 30 or a high school graduate or both is .

If one student is selected at random from the 300 surveyed, the chance that the student will be both under 30 and a high school graduate is .

图表解读

Graphics Interpretation

Test takers will be asked to interpret a graph or graphical image, and select from a drop-down list to make response statements accurate

Calculator

The Quasi JX is a new car model. Under ideal driving conditions, the Quasi JX's fuel economy is E kilometers per liter ($E \frac{\text{km}}{\text{L}}$) when its driving speed is constant at S kilometers per hour ($S \frac{\text{km}}{\text{h}}$).

In terms of the variables S and E , select the expression that represents the number of liters of fuel used in 1 hour of driving under ideal driving conditions at a constant speed S , and select the expression that represents the number of liters of fuel used in a 60 km drive under ideal driving conditions at a constant speed S . Make only two selections, one in each column.

Liters of fuel in 1 h	Liters of fuel in 60 km	
<input type="radio"/>	<input type="radio"/>	$\frac{S}{E}$
<input type="radio"/>	<input type="radio"/>	$\frac{E}{S}$
<input type="radio"/>	<input type="radio"/>	$\frac{60}{E}$
<input type="radio"/>	<input type="radio"/>	$\frac{60}{S}$
<input type="radio"/>	<input type="radio"/>	$\frac{S}{60}$
<input type="radio"/>	<input type="radio"/>	$\frac{E}{60}$

二段式分析

Two-Part Analysis

A question will involve two components for a solution. Possible answers will be given in a table format with a column for each component and rows with possible options; test takers will be asked to consider the options provided

Integrated Reasoning Score Scale

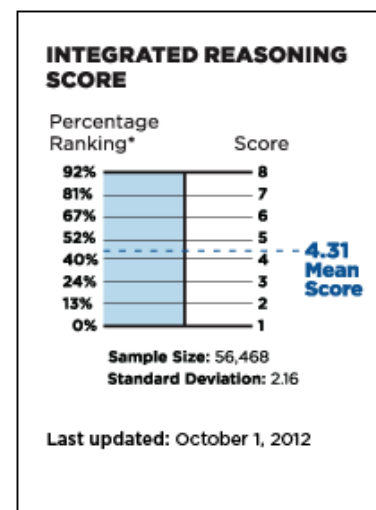

1

- Does not affect your Quant or Verbal scores
- Scale from 1 to 8 with intervals of 1
- No Partial Credit
 - Must answer all parts to a question correctly to receive credit

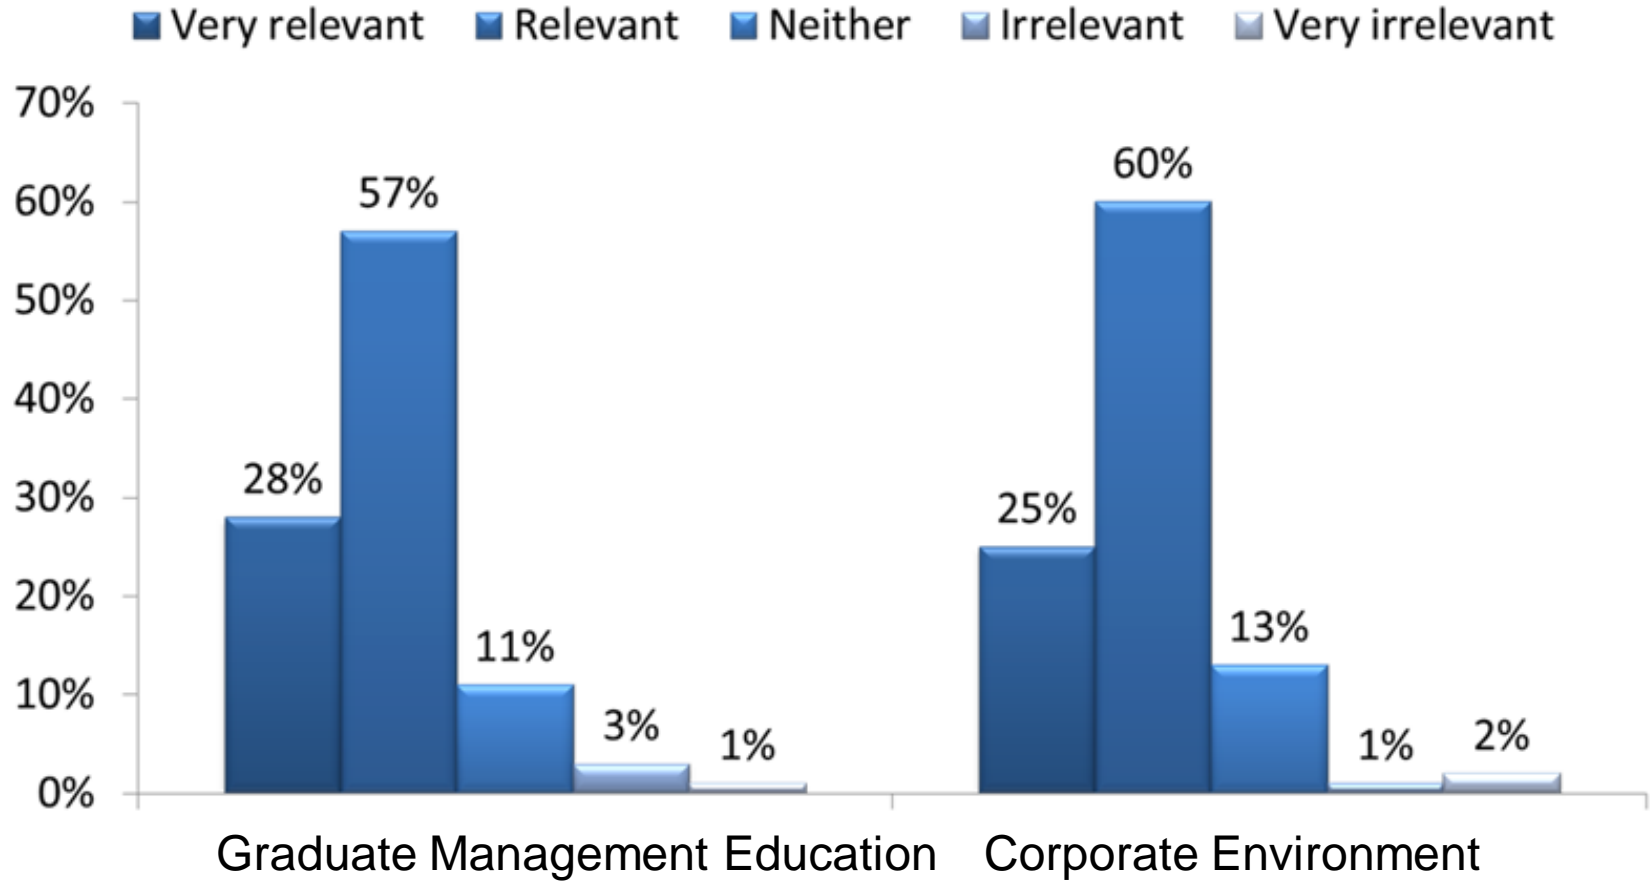

8

Understand GMAT Scores

Weekend Conferences

1 The expenses related to sponsoring a
2 conference can be immense. An organization
3 sponsoring a conference can recoup these
4 expenses through registration fees and
5 partnership with the host hotel. As part of the
6 partnership, the host hotel sets aside a block
7 of rooms for conference attendees, with rooms
8 available at a slightly higher-than-normal rate.

9 While most conference attendees prefer to
10 stay in the host hotel, they often follow an
11 alternate strategy to avoid the extra cost of
12 reserving a room within the block at the host
13 hotel. Some attendees reserve rooms outside
14 the host hotel—the ROHH strategy. Others
15 reserve rooms outside the block—the ROB
16 strategy.

17 Conference sponsors have succeeded in
18 countering these strategies by increasing the
19 conference registration fee by a fixed amount
20 and then offering an equivalent registration fee
21 discount to attendees who book rooms in the

For each of the following sponsors, select *Yes* if an attendee of the sponsor's conference would spend less money by employing the ROB strategy—paying the lowest possible room rate in the host hotel and paying the nondiscounted registration fee—than by reserving a room in the block. Otherwise, select *No*.

	Yes	No	
1A.	<input type="radio"/>	<input type="radio"/>	CC
1B.	<input type="radio"/>	<input type="radio"/>	FFNA
1C.	<input type="radio"/>	<input type="radio"/>	HMHPA

7 steps to the GMAT exam

Step 2: Register for the GMAT; develop a study plan

Activity

- Select your test center and date, and book your GMAT exam – the farther in advance you book, the greater your choice.
- Develop a study schedule that lists not just when but also what you'll study.

Resources

- Find a test center near you
- Book your GMAT exam
- Familiarize yourself with the GMAT exam by reviewing the basics and reading about the exam format and the different question types.

Tips

- Plan to study twice a week.
- Mix up different question types and exam sections in your schedule.

Previous step

Next step

Practice

Try retired GMAT exam questions, review your progress, and then apply what you've learned in two full-length GMAT exams. You can even reset your answers and do it all again.

[Home](#) > [Practice](#) > Create your own question set

Create your own question set

Create your own set of questions for practice using the options below. First, select the set of questions to draw from and then choose the questions to answer by type and difficulty. Next decide if you want to answer them randomly or sequentially, one type after another. Finally choose your mode - in study mode, you'll see answer explanations after each question; in exam mode, no answers until you've finished.
