GMAT Online Secure Browser*
MAC Installation Guide

*provided by Respondus

---

1. **Open the MACOS installation package "MAC_RSB_Download_File-v2.0.8.01.pkg" located in your Downloads folder.**

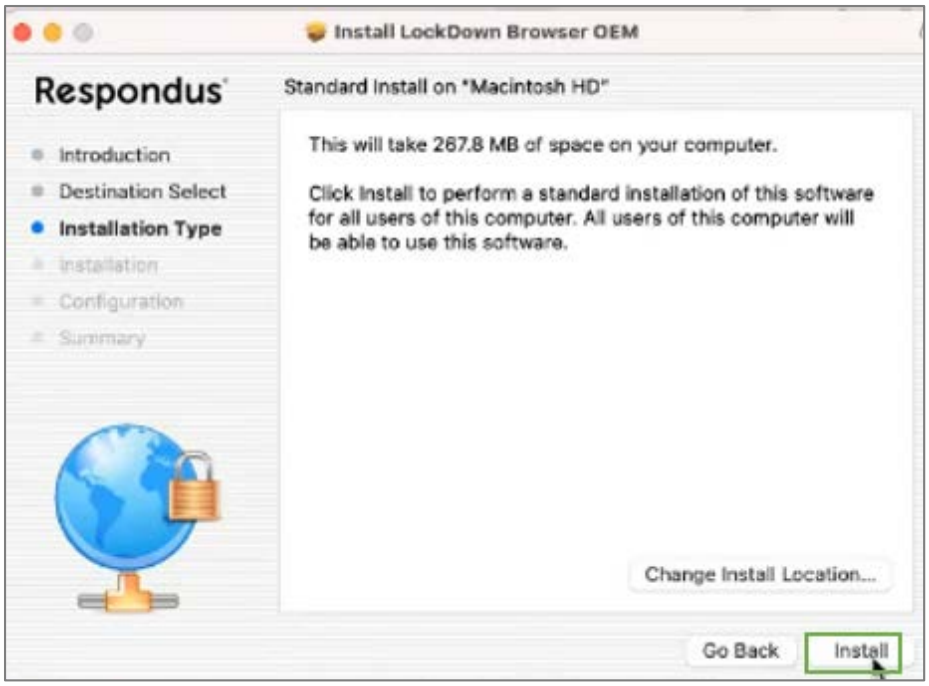

2. **Allow the Program to Initialize. You will see the program referred to as "Respondus."**

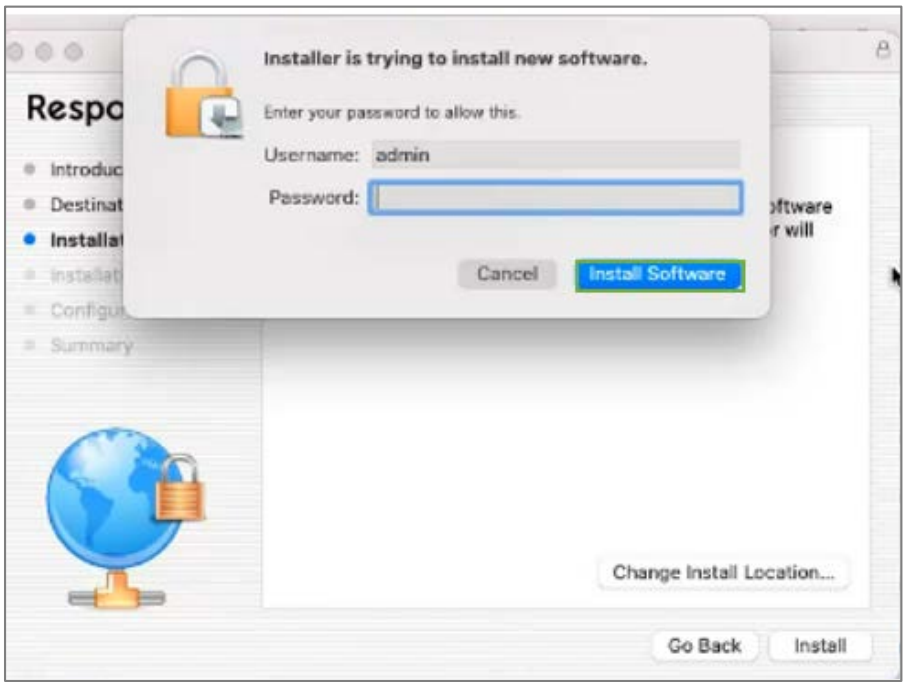

3. **Start the Installation Process and click on "Continue."**

4. **Allow the program to install by clicking the "Install" button.**

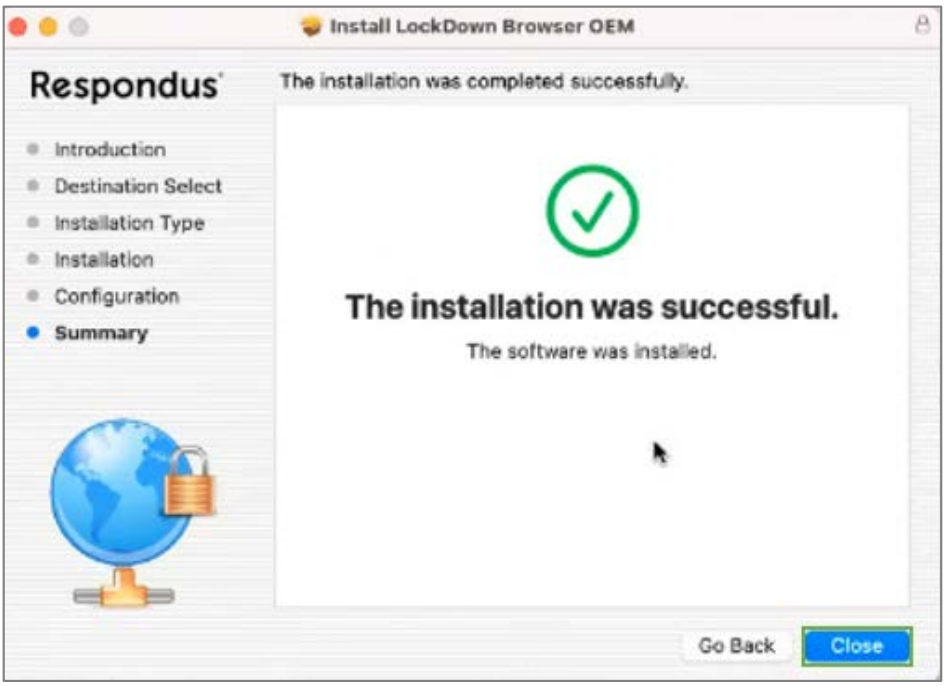

5. **Enter your computer username and password and click "Install Software" to allow the installation to proceed.**

6. **Let the Installer run to complete the installation.**

7. **After successful installation, a message will display saying "The installation was successful." Click "Close" to close the installer.**

Please Note: *Launching your scheduled GMAT exam will open this Secure Browser which will lock your machine and update your preferences to adhere to the GMAT Online exam requirements.*
