

# GMAT Online Secure Browser\*

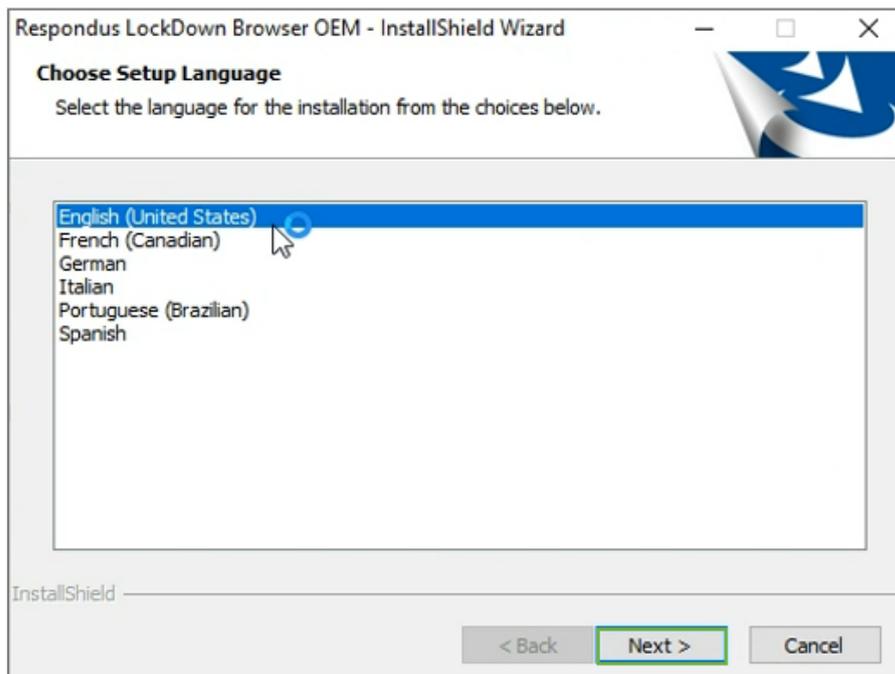

## Windows Installation Guide

\*provided by Respondus

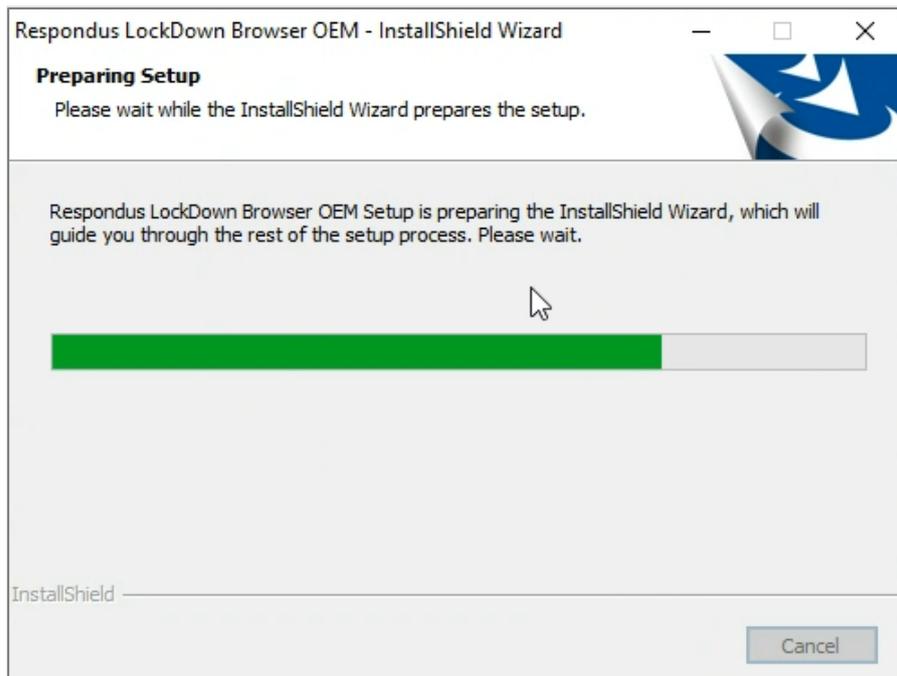

1. Open the Windows installation file “Windows\_RSB\_Download\_File-v.2.08.709.exe” located in your Downloads folder.

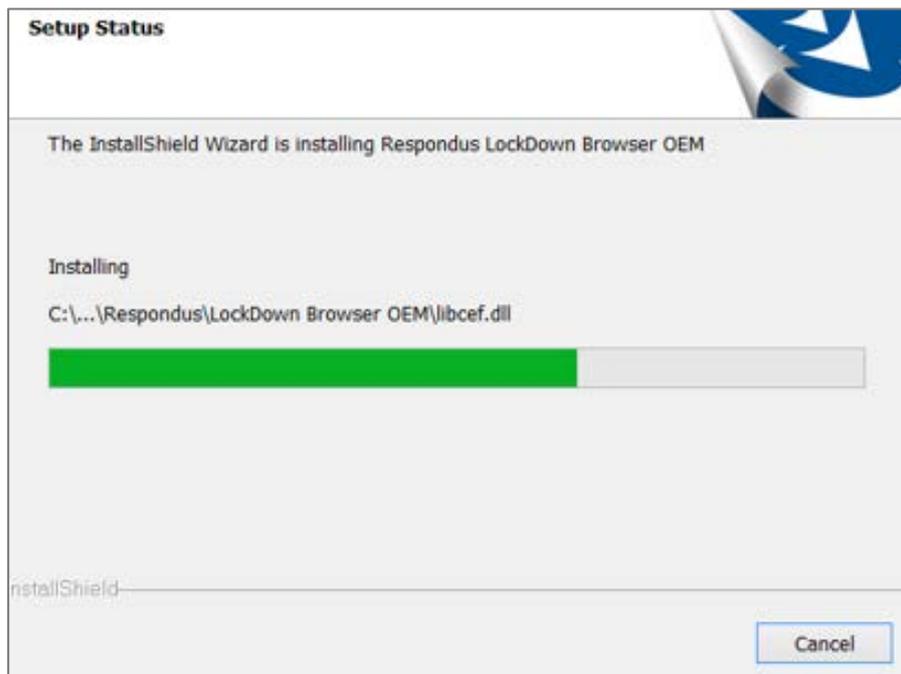

2. Choose your preferred language for the installation and click “Next.” (Note: you will see it referred to as Respondus LockDown Browser during the installation).

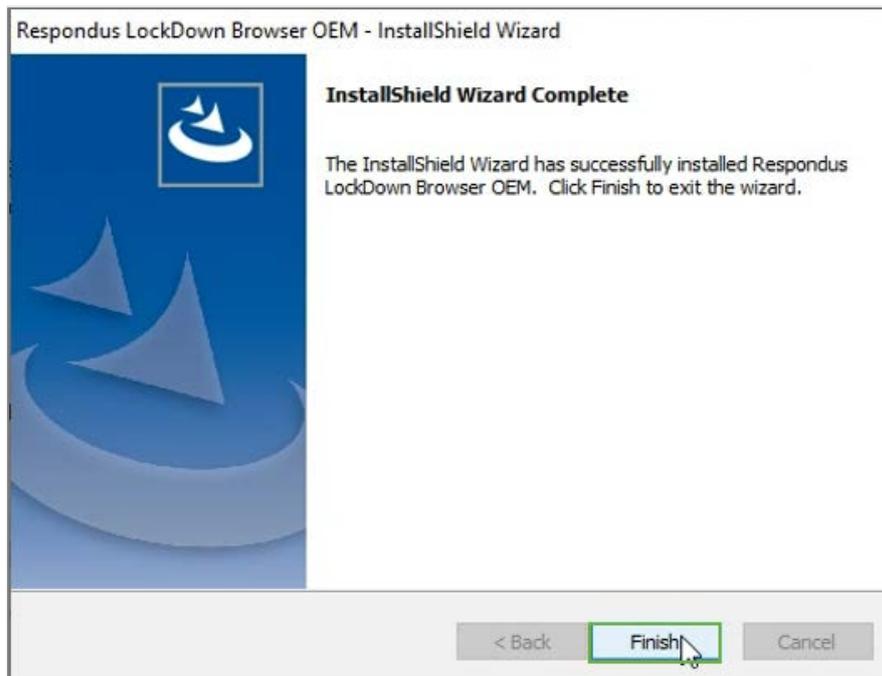

3. Wait for the install to prepare (this may take a few minutes).

4. The InstallShield Wizard will install the GMAT Online Secure Browser.

5. Once the installation is complete, click "Finish."

6. The GMAT Online Secure Browser has installed successfully. To confirm that it is on your machine, you can look for the "Respondus LockDown Browser OEM" file in the following location: Control Panel > Programs and Features.

Program Name	Manufacturer	Installed On	Size	Version
Mozilla Maintenance Service	Mozilla	20-09-2021	308 KB	73.0.1
NoMachine	NoMachine S.a.r.l.	26-11-2021	139 MB	7.7.4
NotePad++ (32-bit x86)	NotePad++ Team	15-12-2021	14.7 MB	8.1.9.3
Postman x86_64 9.9.0	Postman	14-01-2022	154 MB	9.9.0
<b>Respondus LockDown Browser OEM</b>	<b>Respondus</b>	<b>14-01-2022</b>	<b>2.00.709</b>	
Sophos SSL VPN Client 2.1		24-09-2021		2.1
Symantec Endpoint Protection	Broadcom	21-09-2021	632 MB	14.3.3385.1000

**Please Note:** Launching your scheduled GMAT exam will open this Secure Browser which will lock your machine to adhere to the GMAT Online exam requirements.
