GMAT Online Secure Browser*
Windows Installation Guide

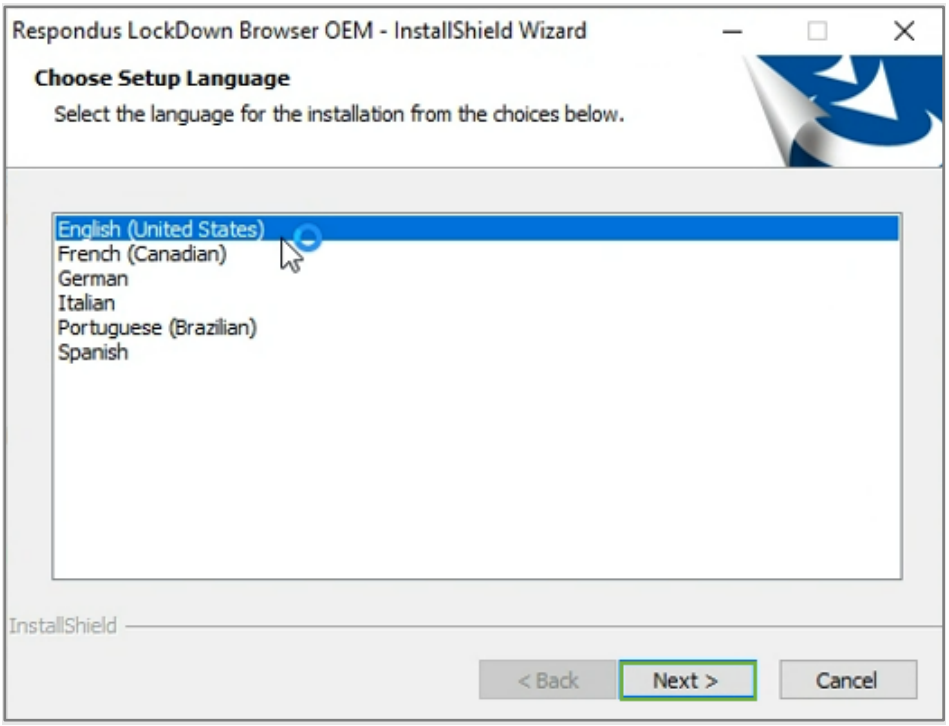

*provided by Respondus

---

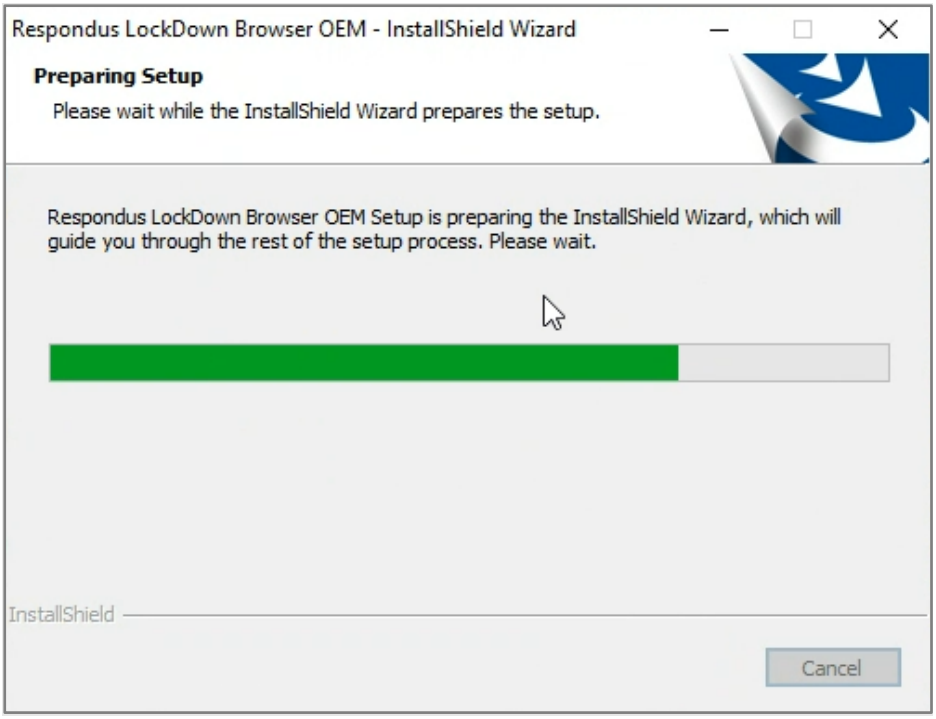

1. **Open the Windows installation file "Windows_RSB_Download_File-v 2.0.8.07.exe" located in your Downloads folder.**

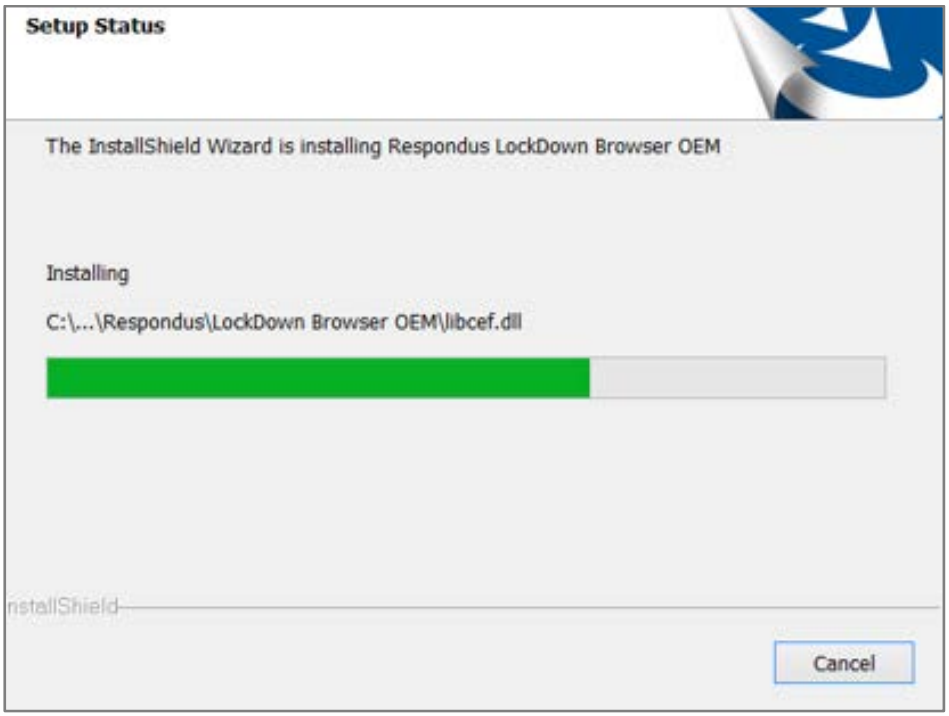

2. **Choose your preferred language for the installation and click "Next." (Note: you will see it referred to as Respondus LockDown Browser during the installation).**

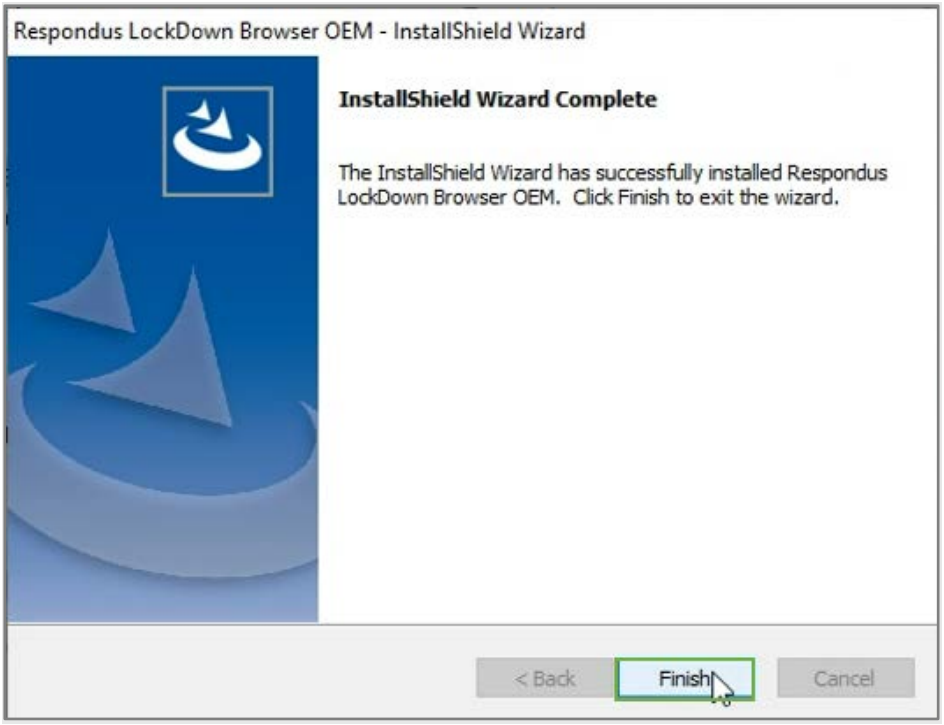

3. **Wait for the install to prepare (this may take a few minutes).**

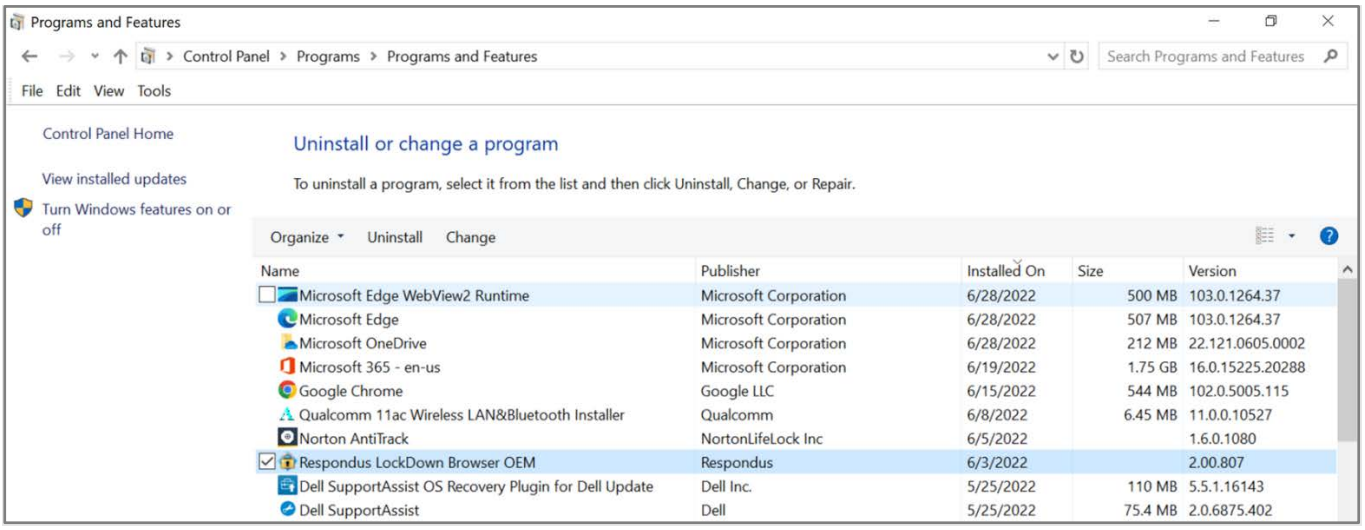

4. **The InstallShield Wizard will install the GMAT Online Secure Browser.**

5. **Once the installation is complete, click "Finish."**

6. **The GMAT Online Secure Browser has installed successfully. To confirm that it is on your machine, you can look for the "Respondus LockDown Browser OEM" file in the following location: Control Panel > Programs > Programs and Features.**

Please Note: *Launching your scheduled GMAT exam will open this Secure Browser which will lock your machine to adhere to the GMAT Online exam requirements.*
